

# A new road in payments for your parking business

Worldline Parking Payments Suite

Digital Payments  
for a Trusted World

## Full-service online and omnichannel payment solution

At the core of the offer, Worldline is providing you with a **single platform for all online payment services** including mobile, E-commerce and in-app payments, allowing you to make parking an online service accessible from any channel, and enabling use cases such as online booking, payments or refunds.

With Worldline Parking Payments Suite, your business is ready for omnichannel and all related use cases!

## Terminals for all parking use cases

Improve your user experience and increase your revenue with our wide range of terminals for parking, including PCI 6. x and Android devices. Worldline's attended, unattended and ATEX hardware solutions are quick and easy to integrate and comply with all the latest regulations.

Our unattended terminals are **ruggedised and outdoor-proof**, easy to integrate and to use and above all, perfectly suited for the parking business. We support low-power consumption and wake-up mode for solar powered parking meters. Our attended terminals are **smart and intuitive** to use in manned parking places.

# Worldline Parking Payments Suite USPs

A new full-service parking payments suite for pan-European deployment through all channels:

**One E2E offering for all countries** with a single point of contact: attended and unattended payment terminals, E-acceptance and mobile, acquiring, installed base management and business insight reporting

**One solution for all your sales channels:** F2F, Mobile, E-com and omnichannel enablement

**We can connect to existing customer legacy system**

**We offer international acquiring** and connections to local customer acquirers

**We rely on 40+ years expertise in this sector**, to advise and support in the implementation of our customers country specific requirements

**We support dedicated parking uses cases:** Tap-in/Drive-out, pay on foot, pay on exit, Ticket-in & card-out and enabled omnichannel uses cases

**Parking dedicated transaction flow with pre-authorisation**, to enable a smooth and safe Tap-in/Drive-out experience

**One company, one point of contact** for multiple EU countries, facilitating customer deployment and expansion

**State of the art payment terminals**, easy to integrate and to use, ruggedised, outdoorproof, perfectly adapted for unmanned parking stations

## Pan-European acquiring & advanced reporting

Worldline Parking Payments Suite provides **pan-European acquiring**, enabling the acceptance of a wide number of card schemes. Thanks to our **Interchange++ model**, your acquiring fees will always fit your acquiring costs, so you don't have to pay for more than you use.

**Simplify your reporting** with a unique financial reconciliation tool, allowing automatic **reconciliation from multiple sources** plus being customised to your needs and requirements.

## Payment acceptance all over Europe

Worldline Parking Payments Suite relies on dedicated payment gateways and is available in **50+ countries in continental Europe**. Our global solution can be tailored according to your local needs, enabling you to accept payments for all your parking use cases.

Our gateways connect you directly to Worldline acquiring to get the best-in-class offer for internal and local schemes. We can connect you to local acquirers in France, Italy, Spain and more countries to get the **best and most competitive acquiring offers** provided by local banks.

# An end-to-end offer for the parking segment

For all your needs in payment and beyond across all European countries

200+ payment methods: Contact, contactless, mobile, private cards...
